4. Applicant Declaration

I declare that the information and documents provided in this fictional test application are intended only for compliance-testing purposes. The applicant authorizes verification of the information supplied and acknowledges that documents may be checked for completeness and consistency.

5. Compliance-Agent Test Instructions

Analyze this document against the SBI Home Loan compliance rules supplied separately to the agent. Do not assume missing documents are present. Identify each rule that can be evaluated, classify it as PASS, FAIL, or NEEDS_REVIEW, and explain the evidence from this document.

Intentional test conditions: Form 16 is missing; only four months of bank statements are listed; the valuation report lacks a valuer signature; the credit score is 712; and property insurance has not yet been obtained. These conditions are deliberately included to test the compliance agent.
